

# Qué se actualizará

En las propiedades de la actualización elija que este paquete actualiza un paquete anterior, como se muestra en la imagen a continuación.

The image shows a Windows-style dialog box titled "Business Analytics Upgrade Properties". It has a standard title bar with a question mark and a close button (X). Below the title bar is a tabbed interface with five tabs: "General", "Deployment", "Upgrades" (which is selected), "Categories", and "Security".

Inside the "Upgrades" tab, there is a section titled "Packages that this package will upgrade:". Below this title is a large, empty rectangular list box. Underneath the list box are two buttons: "Add..." and "Remove".

Below the buttons is a checked checkbox with the label "Required upgrade for existing packages:". A horizontal line separates this section from the next one.

The next section is titled "Packages in the current GPO that will upgrade this package:". Below this title is another large, empty rectangular list box.

At the bottom of the dialog box, there are three buttons: "OK", "Cancel", and "Apply". The "OK" button is highlighted with a blue border.

Active la casilla **Required upgrade for existing packages** y aplique la configuración.

**The Fraud Explorer** es un software que junto con **FraudGPT** detecta el fraude y la corrupción en las organizaciones. Este software está siendo desarrollado por [NOFRAUD.la](#). Este contenido es privado y únicamente está disponible para clientes de NOFRAUD. Está prohibida su publicación en fuentes abiertas o disponibles al público.
