

Verificación de la desinstalación

Para verificar en un PC de usuario, se puede volver a ejecutar el comando en la consola de **PowerShell** que muestra el listado de las aplicaciones instaladas:

```
get-wmiobject Win32_Product | Format-Table IdentifyingNumber, Name, LocalPackage -AutoSize
```

The screenshot shows a Windows PowerShell window titled 'Administrador: Windows PowerShell'. The command `get-wmiobject Win32_Product | Format-Table IdentifyingNumber, Name, LocalPackage -AutoSize` is entered and executed three times. The output is a table with three columns: IdentifyingNumber, Name, and LocalPackage. The first two executions show the same list of installed products, including Microsoft Visual C++ 2019 X86 Additional Runtime, Update for x64-based Windows Systems (KB5001716), Microsoft Update Health Tools, Microsoft Visual C++ 2019 X64 Additional Runtime, Business Analytics Pro, Microsoft Policy Platform, Microsoft Visual C++ 2019 X86 Minimum Runtime, Microsoft Visual C++ 2019 X64 Minimum Runtime, and Configuration Manager Client. The third execution shows the same list, but the 'LocalPackage' column for 'Business Analytics' is truncated, showing only 'C:\Windows\Installe...'. The window has a dark blue background and a white border.

IdentifyingNumber	Name	LocalPackage
{BD8C6100-7C7D-48DD-93BA-69F6828213FE}	Microsoft Visual C++ 2019 X86 Additional Runtime - 14.28.29914	C:\Windows\Ins...

{455DF12C-7D43-4EFF-AE2F-43C8AF2817A3}	Microsoft Visual C++ 2019 X64 Minimum Runtime - 14.28.29914	C:\Windows\Installe...
{7F8F731D-9605-427E-AB60-E660D6E08ABB}	Configuration Manager Client	C:\Windows\Installe...

Como se observa, después de crear la acción de desinstalación en el SCCM, ya no aparece la aplicación Business Analytics.
